

Akoona Model AK23

Product Flyer

VENDING STATION:

- Heavy-duty construction and keycard entry system make the AK23 one of the most secure vending machines on the market.
- Large back-lit graphics area. Use our standard graphics or customize/brand your own!
- Small footprint (46"W x 60"D) compared to competing ice vending machines.
- Can be ordered as Ice & Water (standard) or Ice only.

ICE DISPENSING:

- Patent pending never-jam dispensing mechanism has produced 100,000+ vends to date without a jam.
- Makes ice on-site, eliminating human handling and contamination.
- Multiple cube makers available to suit your specific needs/demands. We will help you select the right one.

WATER DISPENSING:

- Everpure® commercial filtration system ensures pure water at every dispense.
- Optional ultraviolet treatment for water sources requiring sterilization.

USER PAYMENT OPTIONS:

- Accepts credit cards, and/or Akoona Vend Card®, and/or cash.
- Akoona Vend Card available to incentivize and encourage frequent customers.

BUSINESS MANAGEMENT:

- akoona.net web-based business management system makes managing 1 to 1000 machines a breeze.
- Fast and accurate creation of monthly billing statements.
- Supports multiple forms of business arrangements (i.e. flat fee, profit share, per vend fee, etc)
- Remotely change pricing, vend sizes, etc.
- Set e-mail and/or text alarms to notify you of filter status, low ice level, internal temperature, etc.

ENVIRONMENTAL BENEFITS:

Lowest carbon footprint of any commercial ice operation available.
Bulk dispensing encourages users to supply/recycle containers.
